552027 6 mm curved jaws Round knurled handle

552022 10 mm curved jaws Round knurled handle

552025 9 mm curved jaws Round knurled handle

552005 Straight jaws Round knurled handle

Build your own cornea set

Tailor-made: Build your own instrument set from a portfolio of 1200 instruments which allows surgeons to prepare ahead of time for success

Simplify: Reduce number of SKU's which contributes a better work environment for all stakeholders

Constant quality: HASA Optix offers a quality equivalent to reusable devices allowing surgeons to use them constantly

Environmentally friendly: Instrument sets are presented in a paper pouche avoiding heavy plastic inserts (only one pack and one sterilization)

Circular economy: We are building a recycling program to give a second life to the stainless steel our instruments are made of

Cost controlling: We are offering intergrated solutions to allow the calculation of a fixed cost per surgical act

Include your cornea instrument sets in our cornea procedure pack for better OR organization and cost controlling

Cataract

Cornea

Refractive

Glaucoma

Oculoplastic

Injection

Vitreoretinal

Anticipate, simplify and professionalize are our drivers.
